Vue d'ensemble: This is a much larger than average three bedroom apartment located in a frontline beach and port complex. The benefit of this apartment in comparison to others in and around Cabopino Marina and beach is that apart from its large terrace it also has a great private garden area that really allows one to enjoy the outside living. There is a main terrace from leading from the living room and also a smaller terrace from the main bedroom. The property has been cleverly renovated to a high standard with three new and modern bathrooms. Cabopino Port is located in East Marbella and boasts some of the best beaches on the Costa Del Sol famous for the shallow sandy beaches in the summer and popular for surfers and windsports in the mild winter months. Call us for a viewing! Property size from catastral register 300m² built - the distribution between terrace and internal floor space to be confirmed.
